## work experience

2017–now

### SHOPFULLY INTERNATIONAL GROUP

Milan, Italy

*Head of Data Solutions (before: Data Product Lead)*

Pivotal reference role among Business Owners, Product Managers, and the Data team. Optimizing FTE costs and efficiency with automated and self-service data access. Supporting development with advanced analytics.

- Team management (20 people among Data Engineering, Data Science and Data Analytics), setting goals and roadmaps with C-level and Business stakeholders, implementing the Enterprise Data Strategy
- Providing ad-hoc strategic insights and data-driven tools for the Marketplace (B2C) and the Sales&Marketing (B2B) business lines
  - Insights: performance monitoring, engagement/CTR optimization, A/B tests, cohort, churn, uplift and risk analysis
  - Tools: fully integrated customer reporting, monitoring dashboards, automatic benchmarks, critical system alerts
- Designing and developing the user-profiling DWH (incl. ETL pipelines) and leading the project mgmt. for the new Customer Analytics PaaS
- Hiring, tutoring and training

**Tools/Skills:** SQL, Tableau, ETL, R, Python, Docker, Git, AWS, Google Cloud

2014–2017

### DAWANDA GmbH.

Berlin, Germany

*Head of Business Intelligence (before: BI Architect)*

Management of the Data Analysis and of the Data Engineering teams (5 people). Ownership of the BI data-pipelines: automated data collection, processing, KPI tracking and reporting using interactive dashboards. Project management and stakeholder interaction was based upon the DSDM Atern agile framework.

- Team management, goals and tasks definition, hiring, C-level reporting
- Data-driven decision making
  - In-depth analysis and forecasting of the main business KPIs through statistical analysis (e.g. correlation, regression, clusterization)
  - Main role in defining the quarterly Company objectives
- Management of the BI Data Warehouse
  - ETL development of new tables and OLAP cubes (e.g. sales, revenues), integration of Google Analytics and BigQuery
- Users training, troubleshooting and support

**Tools/Skills:** Pentaho BI (PDI/Kettle, CTools, Mondrian), E-R modeling, SQL, Bash scripting, Tableau, HTML5, CSS3, JavaScript, Git, Linux server

2013–2014

### SDA BOCCONI SCHOOL OF MANAGEMENT

Milan, Italy

*Researcher @ LearningLab*

Data analysis and reporting for financial institutions and major companies. Development of web-based platforms and media packages for online learning.

**Tools/Skills:** LaTeX, SAS, SPSS, Tableau, CMS (e.g. WordPress), e-learning

# giacomoclemente

data intelligence
